

*Announces the release of our New Trailer Disc Brake Conversion kits*

**Disc Brake Conversion for 5200 thru 6000 LB  
Axles, 1, 2 or 3 axle trailers**

Easy Bolt-On Disc Brake Conversion Kit for most all types of Trailers

**Features Integral (One Piece) Hub & Rotor:**

*The rotor and hub are cast as a single unit. Wheel studs are pressed into the rotor. Bearing races are furnished. Seals and Bearings available separately.*

- Hub and rotor are machined together. This minimizes rotor run-out.
- Hub and rotor are balanced as one unit, which offers a smoother ride.
- Ease of installation when retrofitting and / or upgrading from drum brakes.
- Easy Bolt-On disk conversion, complete with instructions.
- Complete kit includes: Rotors, Calipers, Pads, and Indexed Caliper Brackets, Hydraulic Pump Unit, Steel Line Kit, Instructions and Hardware. Requires optional Prodigy brake controller or work on new 2007 Ford EOM controllers.
- Fits most all newer model Dexter, AL-KO and Quality Trailer Products Axles. Heavier rated axle kits also available-Contact us directly for more details.

<b>Rotor Size &amp; Style</b>	<b>Bolt Pattern</b>	<b>Brake Flange</b>	<b>Fits Spindle</b>	<b>Fits Axle</b>	<b>Fits Wheel Size</b>	<b>Grease or Oil</b>
<b>12" Integral</b>	<b>6 on 5.5" 1/2" Bolts</b>	5 Bolt	#42	All	<b>15" &amp; Larger</b>	Grease Lubed

Bearings and Seals are NOT included with Integral brake sets. (Kit does contain 4 Caliper Mounting Bolts with Thread Locker). Automotive quality OEM cast iron rotors are 100% tested and balanced to meet very strict specifications. Our rotors are vented to improve heat dissipation. All gray iron rotors are 35,000 PSI tensile strength castings for longer rotor life, improved structural integrity and superior performance. Gas Slotting is available optionally.

**Bearings and Seals are NOT included with Integral Rotors; You can reuse your bearings and seals or purchase new bearings and seals.**

(Two Axle 5200-6000 pound axle conversion shown)

**ROTOR/HUB-12**

12" Rotor/Hub 6 on 5 1/2" Lug Pattern

Standard Automotive Finish
